We Will Dance and Liberate with You Soon!

I've been wondering how we collectively metabolize the moment of crisis we find ourselves in. What is emerging has led me to offer music for events I'm calling the **HEALING & LIBERATORY DANCE PARTY**. Liberatory music goes beyond protest songs that confront oppression, injustice, and systemic violence, to envision somatic, cultural, and psychological emancipation, and encourage healing, self-determination, communal uplift and radical joy.

If you like dancing, enjoy community and are curious about new ways we may be able to fugitively heal and make sanctuary together with music and dance, come check out AfroRhizomatic Dance presents **HEALING & LIBERATORY DANCE PARTY** at:
Temazcalli Yaoxochitl
June 7 from 6:30-8:00pm.

It will be a Headphone dance party and you'll be provided with the headphones when you arrive. They'll allow you to choose from 3 different programs of healing liberatory dance music. The music will make musical-mycelial connections of our struggles here with the struggles for liberation of kin around the planet, so come prepared to move to music from many genres and traditions.
